

Shut up, shut up  
Shut up while you're talking to me  
I said shut up, shut up  
If you wanna go baby, then leave  
I said shut up, shut up  
Shut up while you're talking to me  
Shut up, shut up  
If you wanna go baby, then leave

Said I cannot fathom how often that we  
Go, go back and forth like a damn factory  
You, you know you won't cause you know what you did  
I, I will not put up with none of this no more

I, I'mma be rolling, cruising like a motherfucker  
Tell my nigga K Dot, I'm bad  
Mercialgo, how I be stunting on these chickens  
And they daughters and they sisters huh  
I said it  
Don't you get it twisted cause you know I'm 'bout my business  
But I'mma be chilling  
So don't worry about me baby, just hand over the keys

If you wanna go, if you wanna leave  
Just leave me  
If you wanna go, if you wanna leave  
You should just leave me  
Who you gonna love? Who you gonna be  
Without me?  
If you wanna go, if you wanna leave  
Then baby, just leave me yeah  
Whatever you gotta do  
Whatever you gotta do  
Just go, just do what you gotta do  
Whatever you gotta do

Lately I been working hard shifts, late nights  
Everything heading off  
And all my queens paid up, make it  
Don't y'all think it's time for you girls to go and have another round?

I, I'mma be rolling, cruising like a motherfucker  
Tell my nigga K Dot, I'm bad  
Mercialgo, how I be stunting on these chickens  
And they daughters and they sisters huh  
I said it  
Don't you get it twisted cause you know I'm 'bout my business  
But I'mma be chilling  
So don't worry about me baby, just hand over the keys

If you wanna go, if you wanna leave  
Just leave me  
If you wanna go, if you wanna leave  
You should just leave me  
Who you gonna love? Who you gonna be  
Without me?  
If you wanna go, if you wanna leave

Then baby, just leave me yeah  
Whatever you gotta do  
Whatever you gotta do  
Just go, just do what you gotta do  
Whatever you gotta do

You can never live without it  
You know you can't live without it, baby don't you love it  
How it feel now you ain't got it?  
I'mma make you write a song about it, on me yeah  
Ask me where the love go  
Acting like you don't know  
I know you miss it  
Why don't you miss it?  
Go, you should just go  
Why don't you go?  
Why don't you go?  
You should just go  
Why don't you go?  
Why don't you go?  
Go

If you wanna go, if you wanna leave  
Just leave me  
If you wanna go, if you wanna leave  
You should just leave me  
Who you gonna love? Who you gonna be  
Without me?  
If you wanna go, if you wanna leave  
Then baby, just leave me yeah  
Whatever you gotta do  
Whatever you gotta do  
Just go, just do what you gotta do  
Whatever you gotta do
