Hey snow
It's coming today
What should I prepare?
Ok, I'm ready to welcome you

Gray
Fallin' on canvas
You can cover it up
I'll give you the world

In the cold season
You coming is the special event for me
My blue and grey
Your warm will melt

Christmas without you would just not be Christmas at all
Bright mistletoe up above us, it's just you and me

I love you

The whole world is full of white flowers
Make our time even more special
In the dead of time
May the flowers fall on your sad smile

When the world turns beautifully white
I'll spread those faded colors with you
There's a lot of white angels here and there this year
Take a deep breath and look at those flowers that look like you
Feel the warmth next to me
I want you to hold me with your beautiful hands
I'll keep you safe
I'll spend the rest of my life in your white eyes

Did you see the snow?
Like your eyes
Believe in Santa Claus?
Warm with you
I'll take the gift
Every time this season comes, like the tip of your nose
Fall in love
I'm just feeling
Stand by my side
I'll match your footsteps
I'll sing this song

You make me wanna be a better man

The whole world is full of white flowers
Make our atmosphere deeper
Under a stopped street lamp
May your smile bring down flowers
