Anything Could Happen

Vacations

Look at where you're standing now
Feel it for a moment, let it out
A change in pattern, something new
Do you feel the way I do?

Anything could happen
I can feel it coming over the horizon
Moving closer to me
I'm starting to see

How the seasons have barely passed
Yet we covered so much distance
Don't lose sight of this
As we're getting closer to the summit

Anything could happen
I can feel it coming over the horizon
Moving closer to me
I'm excited to see
