

Next Exit

Vacations

I'll give this one more try
Before I take the next exit
Off the highway
Into a different life

I don't know how
You can tell me otherwise
When I can't tell left from right
Trouble and strife

Can I trust what I know?
I know nothing
Maybe it's time to let go
Drift and fall apart
Take me back to the start
Or we can just let go

Surprised to be here
Play life on repeat
Stay safe within routine
Won't accept defeat, oh no

I don't know how
You convince yourself
So tragic, don't say anymore
You lost count, never kept score

Can I trust what I know?
I know nothing
Maybe it's time to let go
Drift and fall apart
Take me back to the start
Or we could just let go

Can I trust what I know?
I know nothing
Maybe it's time to let go
Drift and fall apart
Take me back to the start
Or we could just let go
