

## On Hold

Vacations

These feelings were overdue  
You know that it's true  
Kept out of sight from the foreground  
As your heart has found

You didn't want this  
You never meant this  
You didn't want this  
You never meant this

What were you waiting for?  
You kept yourself on hold for too long  
For too long

Nothing was really there  
You just stood and stared  
What you were missing, not what you had  
Suddenly it hits and you realise

You didn't want this  
You never meant this  
You didn't want this  
You never meant this

What were you waiting for?  
You kept yourself on hold for too long  
For too long
