Take Care

Vacations

Prescribe you to a mould
Taking shape and hold
Down to a routine malaise
A repeating phase

Take note, this won't last forever
Take care, nothing lasts forever
The light at the end of the tunnel
Was beside you this whole time

So true, blue, nowhere new
I float in empty thoughts with you
Caught adrift within a deep hue
Played out perfectly on cue

Take note, this won't last forever
Take care, nothing lasts forever
The light at the end of the tunnel
Was beside you this whole time

Take note, this won't last forever
Take care, nothing lasts forever
The light at the end of the tunnel
Was beside you this whole time
This whole time

This won't last forever

This won't last forever

This won't last forever

This won't last forever
