

And Satan Wept

Vader

I witnessed God's creation
Sick ambition turned to chaos
A failure named humanity
Fruit of divine idolatry
Reflection

Made in a heaven's lab
A gentle creature or the beast?
A puppet with its morbid soul
An empty shell filled with contempt and pride
What a cosmic failure

Chaos, death, destruction
Forbidden but obligatory
Hate, fear, violence
Sacrecy for society
Future, past, present
Animated by tyranny
Sanctified hypocrisy
The perverse face of the lord
The perverse face of God

I witnessed the apocalypse
Divine child thrown in Hell
A tragedy or a comedy?
Or just a tyranny living its sick, rancid dreams?

And Satan wept
