

## Rampage

Vader

Broken silent night  
Thunders beating hard  
Hunger in the light divine  
Hordes of the dead  
Agony and dread  
Abolition of divinity eternal

Crosses falling down  
Destroying all around  
Judgement interrupted by the agony  
Carnage of the faith  
Enslavement and disgrace  
Rules in the stone total crashed

Pearly gates in blood  
Angelic wings cut  
Altars of the false collapsed  
Everlasting war  
Hell's crushing roar  
Death riding up to the stars

Pain, hate, kill, revenge  
Whispers, voices, screams, decay  
Scum, corruption, whoredom, decline  
Lies, illusion, deception and death...
