

# Motivated

Vado

You're everything I want,  
I wanna give you what you need  
Baby when I said I'll hand you the world I don't mean to gloat  
Real talk I don't mean to glow  
You're everything I want girl, I give you what you need  
I was born to spend money  
Girl we make the perfect team.

Like the Boston Celtics  
You can have it all, mine far from selfish  
Sean Paul dance harder than Elvis harder than Elvis  
You wishing on a star, I'm the star you end up with.  
Vado, man  
You know how V do  
Finish your bracelet, ice cubes and V2s  
Boo you like that? Well me too  
So tell the lady wrap up both, we need 2  
Anything to make my sugar happy  
She like you too young to be a sugar daddy  
Condo classy, you could let er in,  
Minus the C you could see me in every letter bin  
Nuff cheddar spent, that's what I really do  
Had plenty boo's but none of them as pretty as you (nah)  
But we could cruise through the city too

Whatever you want (whatever), whatever you need (I got it)  
You get me motivated to give it to you baby  
I'm tired of playing games (real talk)  
I want to treat you like a queen (gorgeous)  
Whatever it takes to keep you motivated (I got you baby)

Wutchu wanna sip? White wine or nectar?  
Eyes like Electra, I'm a dime collector  
Sex of the wall like a projector  
Loft down in Tribeca, now they gotta respect ya  
No more shoppin at C Town  
Lead out every night, for Mr. Chowder Felipe's now  
Love is blind but I see now  
Soon as you call I answer, no need to redial  
Ain't even had no dream yet  
Giusepppe high heels, Alexander McQueen dress  
Dress flyer than golf stream jets  
Shoot a cross just to catch a play we ain't seen yet  
(Vado) I do the damn thing,  
Trust me like Pepsi, I'm a brand name,  
Must be impressed driving your man's Range  
No loan, I get you your own and champagne  
Do the damn thing.

Whatever you want (it's nothin), whatever you need  
You get me motivated to give it to you baby  
I'm tired of playing games (you already know)  
I want to treat you like a queen (it's my wife right there)  
Whatever it takes to keep you motivated

Why cuff ya? No need to rush ya  
Street hustla, guaranteed to touch ya

SL6 to pick up her  
She like what the? Soon as the seats hugged er  
I show you how to ball playa  
Risk residence, we live around ball playas  
White planes, no ice chain, that's light change  
We like things, there's nothing out of our price range

There's a combination to your heart  
You to the left, me to the right  
Love in the middle, girl  
And what we've built together  
Let nobody tear it apart  
That's why I do for you girl.

Whatever you want, whatever you need  
You get me motivated to give it to you baby  
I'm tired of playing games  
I want to treat you like a queen  
Whatever it takes to keep you motivated  
(2x)

Motivated, motivated  
Motivated, motivated
