

Long Time Ago

Vain

Damned if I do
Damned if I don't
Comes to your love
Maybe I won't
Oh, you're calling back our own
Got an idea, leave me alone
But if you think you saw something in my eyes
That reminded you of a better time
But we're all alone, shiver in the cold
Guess you made four walls your home
And now it seems like a long long time ago
Taste a little love
Help me move my soul
And now it seems like a long long time ago
Taste a little love
Help me move my soul

Took a little time to steal your heart

Took a little less
Break it all apart
Oh, late at night I call your name
Listen to the wind
It's always the same
And now it seems like a long long time ago
Taste a little love
Help me move my soul
And now it seems like a long long time ago
Taste a little love
Help me move my soul

And now it seems like a long long time ago
Taste a little love
Help me move my soul
And now it seems like a long long time ago
Taste a little love
Help me move my soul
