

Down

Val Emmich

Down

Trade all these empty sounds
For a wave of real love
Knock me down

Down in a whirlpool
I will drown
Down...like a castle
Stormed from the ground

You are my last shot
My final round
If we fail i'm nothing
Just put me down

Down...like a black bear
A thousand pounds
Down...in a plane crash
That thunder sound
So loud
Hear me now
So loud
A train downbound

Wait for perfection
It will never be found
Let's chase this monster
Out of this town

Now or never
Are you in or are you out?
I vow to serve you
I'm not too proud
Down
Before you i will bow down
I will bow down
I will bow down
