

We Still Bleed

Val Emmich

It's way too early
To say you gotta go
You rub your eyes
Throw the covers to the floor
And you always said you'd never
But found a way to ask for more
Now the only light that's shining
Is behind that exit door

And i don't have the time
To figure out what it was you meant
No i never understood why what you said
Wasn't what you felt
Baby you got no reason to leave
But it's not enough to stay
Baby i can't believe
That we let it get this way

We're past convention
Past token apologies
We always make amends
We hand in our guilty pleas
But we still bleed
Yeah we still bleed
Underneath there's a toxic stream
Flows thru our whole foundation
And now it's climbing past our knees

And i don't have the time
To figure out what it was you meant
No i never understood why what you said
Wasn't what you felt
Baby you got no reason to leave
But it's not enough to stay
Baby i can't believe
That we let it get this way

How did we let it get this way?
