

Days Go By

Valencia

I cannot be alone like this for too long
I feel my walls caving
And I can't begin to describe just what it takes
To get me through these days
I feel my feet off the ground without you around

I just can't let those days go by
And there's just no peace of mind
Without you, it's hard to find
I know, I know, I lost it when I lost you

I am always changing my face and changing my name
I'm drinking eight cups a day. I'm always awake
'Cause I am just a little insane, neurotic and mundane
And now I'm strapped to this bed 'cause what's in my head

I just can't let those days go by
And there's just no peace of mind
Without you, it's hard to find
I know, I know, I lost it when I lost
Your faith in my fucked up sense of pride
There's no reason left to fight
I know, I know, I lost it when I lost you

Don't say sorry, please
I'm going crazy for you

Days go by
And there's just no peace of mind
Without you, it's hard to find
I know, I know

I just can't let those days go by
And there's just no peace of mind
Without you, it's hard to find
I know, I know, I lost it when I lost you
Don't change your mind
'Cause there's so much left in life
Without you there is no I
I know, I know I lost it when I lost you
I lost it when I lost you, lost it when I lost you
