

Smile

Valerie June

All I could do
All I could do was smile
Life started keeping me, getting me down
All I could do was smile

Well, I dusted off
Guess I'll get back up
It was worth the fall
When the times got tough
There's a risk involved
Everything a cost

I'll make it through
I'll make it through somehow
So weathered and worn, ever dreaming so wild
All I could do was smile

If you never leap
Then your heart won't know
So you take the chance
So you just let go
And you'll get knocked down
But that's how you grow

All I could do was smile
All I could do was smile
All I could do was smile
There'd be tears in my eyes
All I could do

(I'll make it through)
(I'll make it through)
(I'll make it through)
(I'll make it through somehow)

Counting on you
Counting on you to shine
Though treasures feel torn, tangled, twisted, and twined
All I could do was smile
