

Two Hearts

Valerie June

Known you just a little while
I won't question or wonder how
If you've got a better plan
Be the first one to understand

Then they fell
Two hearts they fell
What they felt
Two hearts they felt
Like they'd been wishing on a wishing well

See, I had learned to live alone
Quiet house keeps a weak mind strong
Though I'd settled in my ways
It's mighty fine waking to your face

Then they fell
Two hearts they fell
What they felt
Two hearts they felt
Like they'd been wishing on a wishing well

Known you just a little while
I won't question or wonder how
