

CHAMPAGNE

Valley

Another night alone
You wonder why I'm always getting stoned
Cause baby when I'm low you never come around

You tell me that you care
So tell me why you're always over there
And when I'm shining, you you're the thunder cloud
When I'm thriving you pull me under ground

You can break my heart I'm not broken
I can build a house with the stones you're throwing
I'm not a dreamer it ain't always greener
But I'll turn this pain into champagne

My head is always soar
It ain't even from the night before
So I'll keep making champagne
And changin' up my name
And looking for my place yeah

Cause no I'm not a rich kid
But I keep on trying
Took a couple L's
Now we're laughing at the Ryman yeah

It's all working out
But still feel the doubt
When I think about it yeah

You can break my heart I'm not broken
I can build a house with the stones you're throwing
I'm not a dreamer it ain't always greener
But I'll turn this pain into champagne

Another maze and I made it out
I take the pain and I pour it out
You know there's nothing I can save me

You can break my heart I'm not broken
I can build a house with the stones you're throwing
I'm not a dreamer it ain't always greener
But I'll turn this pain into champagne
