

# Cocaine

Valley

Call me up, fill up my cup  
I've already had two, but that's because of you  
So love me long, long you love  
Another boy that, you've been thinking of

Well you fit like a glove  
But you took it off

You break me down, you build me up  
You give me more when, I've had enough  
And it's not easy, so give me ease  
That other girl was, just a summer breeze

I kept you warm but  
You let me freeze

Now don't wanna make up, don't wanna take up  
Another minute of your day sir;  
I don't even wanna stay girl  
And I don't wanna be your shoulder to lean on  
My nose will itch but man  
I'll get my fix, cause you're my healing and my pain  
I guess that's why they call you cocaine

You build me up, you break me down  
You give me more when I come around  
And it's not easy, so give me ease  
That other girl was, just a summer breeze

I kept you want but you let me freeze

Now don't wanna make up, don't wanna take up  
Another minute of your day girl;  
I don't even wanna stay girl  
And I don't wanna be your shoulder to lean on  
My nose will itch but man  
I'll get my fix, cause you're my healing and my pain  
I guess that's why they call you cocaine

Call me up, just call me up  
Girl that's all I ask  
Just call me up

Cause now I wanna make up, I wanna take up  
Ever minute of your day  
All I wanna do is stay girl  
And I just wanna be your shoulder to lean on  
My nose will itch but man  
I'll get my fix, cause you are my cocaine  
I guess that's why you heal my pain
