

I wanna focus on you and forget my past
You've been on my to do list and we can change that
I just wanna be your cure
I just wanna be, wanna be
Be the one who's here for ya
I just wanna be, wanna be

I can be your nirvana if you wanna
Breath me like marijuana
If you gotta
I can be your shoulder to cry on
Rely on
I just wanna be your cure
I just wanna be, wanna be yours

Don't wanna be a shrink or tell you what to think
Or tell you how to feel
But I can be your root
So carve it in a tree
And we can make it real
I just wanna be your cure
I just wanna be, wanna be
Be the one who's here for ya
I just wanna be, wanna be

I can be your nirvana if you wanna
Breath me like marijuana
If you gotta
I can be your shoulder to cry on
Rely on
I just wanna be your cure
I just wanna be, wanna be yours

Boys don't cry
But that's a lie
Cause you're the only one that's saving me from my life
I can be your shoulder to cry on
To die on
I just wanna be your cure

I can be your nirvana
Believe me when I say I wanna

I can be your shoulder to cry on
Rely on
I just wanna be your cure
I just wanna be, wanna be
I just wanna be your cure
I just wanna be, wanna be yours
