

Evenings & Weekends

Valley

You never want me on the weekends
Or evenings, even when I want you
Wish you would show me what you're feelin'
But feelings do just what they want to

Where's your love? I don't feel it again
Make me kneel on the ground where you stand
Take me out, I bet I'll eat out the palm of your hand

'Cause I won't stay forever, stay forever and you know
That I won't say forever, say forever if you don't

You never want me on the weekends
Or evenings, even when I want you
Wish you would show me what you're feelin'
But feelings do just what they want to
'Cause I won't stay forever, stay forever and you know
That I won't say forever, say forever if you don't

Watch me drown as you throw me away
Wave goodbye as I circle the drain
Wear my heart like you wear shoes you'll return anyway

'Cause I won't stay forever, stay forever and you know
That I won't say forever, say forever if you don't

You never want me on the weekends
Or evenings, even when I want you
Wish you would show me what you're feelin'
But feelings do just what they want to
'Cause I won't stay forever, stay forever and you know
That I won't say forever, say forever if you don't

I wanna live in your mind all the time, all the time
You keep me close on the line and then forget about me
I won't be here forever, I pictured us together
Baby, it's now or never

You never want me on the weekends
Or evenings, even when I want you
Wish you would show me what you're feelin'
But feelings do what they want to
'Cause I won't stay forever, stay forever and you know
That I won't say forever, say forever if you don't

You never want me on the weekends
You never want me on the-
