# forget me

**Valley**

Save me, save me, save me
'Cause I've been under water lately
I took a loan on your heart
I don't think that was smart
'Cause you let me down

Hate me, hate me, hate me
I hope that you don't hate me, Bailey
I got a box and a ring
You left for finer things
And you moved uptown

There's a space between my ribs where our "forever" used to live rent-
free
There's a space between my sheets but now I have to fake the company

You made a hole in my heart
And a victim of yourself
Don't go falling apart
When I fall for someone else
If you wanna be lonely tonight
Don't forget me, don't forget you're out of my life

Every week's the same thing
Will I be weak forever, baby?
'Cause we were over the moon
But it was over too soon
So, I hit the ground

Thinking lately maybe I should call
'Cause I met somebody else
But when we kiss I taste your mouth
Oh, no
Oh, no

You made a hole in my heart
And a victim of yourself
Don't go falling apart
When I fall for someone else
If you wanna be lonely tonight
Don't forget me, don't forget you're out of my life

You made a hole in my heart
And a victim of yourself
Don't go falling apart
When I fall for someone else
If you wanna be lonely tonight
Don't forget me, don't forget you're out of my life
