

## going grey (voice note)

Valley

Life moves fast when it's awesome  
It's been quick since I saw ya  
Still love like we're fifteen  
Wanna love you when we're fifty 'til six deep

So if I call will you be there  
And promise you won't disappear?  
If life gets tough and the colours fade

Will you still love me when we go grey?  
Will you still love me on the dark days?  
'Cause I can't help but wonder  
Will you love me the same?  
Oh, babe, when we go grey

Hmm
