

# Lampshade

Valley

Well this lampshade, fit I had just final  
Can't find the switch, but I still know when we shine, when we  
shine

Well this street we're on seems to have two sides  
But I'm not giving up until you make up your mind, make up your  
mind

Lampshade, lampshade, lampshade  
This street we're on, this street we're on

I know this place had  
But might have to think about it
