

Loop Love

Valley

Cold blood, it's so easy to the touch
When the TV's in a frownin'
A madman, a video star
To the radio at a silent

Don't wanna push away
I heard it some way
Holdin' me back, back, back, back, back
There's no safe sound
When we're home now
You roll your eyes, so baby
Back, back, up, up

Song flows out the room
(Though I was rushin' said I never come back)
Push away from you
(Though I was rushin', though I'm always rushin' back)

Good talk, but we never say much
When the conversation's mundane
And you breath your transparency
But I know you've got a good heart

Don't wanna push away
I heard it some way
Holdin' me back, back, back, back, back
There's no safe ground
When we're home now
You roll your eyes, so baby
Back the fuck up

Song flows out the room
(Though I was rushin' said I never come back)
Push away from you
(Though I was rushin', though I'm always rushin' back)

Song flows out of you
(Though I was rushin' said I never come back)
Song flows out on us too
(The world is rushin' around you)

Song flows out the room
(Though I was rushin' said I never come back)
Push away from you
(Though I was rushin', though I'm always rushin' back)
Song flows out the room
(Though I was rushin' said I never come back)
Push away from you
(Though I was rushin', though I'm always rushin' back)
