memories

Valley

Your hair was long and I was younger
On the run like "Dumb & Dumber"
I'd wear your clothes just to feel a little closer
They don't fit the same

Looking back what we had was beautiful
I hope you're doing well

We used to be what you see when you think of love and everything in-
between
We used to talk saying "Nah, nah, nah. You hang up," 'til one of us f
alls asleep
We gave what we had
It's not that it's bad
Just lost what it used to be
But you'll always find me in your memories

When did you notice somethings missing?
I felt it like a premonition
We got in bed and that's when you rolled over
"Is it over?"

We used to be what you see when you think of love and everything in-
between
We used to talk saying "Nah, nah, nah. You hang up," 'til one of us f
alls asleep
We gave what we had
It's not that it's bad
Just lost what it used to be
But you'll always find me in your memories

It's hard to admit
We're calling it quits
You can't call me in tonight
We were just kids
We did what we did
We can't go back in time

We used to be what you see when you think of love and everything in-
between
We used to talk saying "Nah, nah, nah. You hang up," 'til one of us f
alls asleep
We gave what we had
It's not that it's bad
Just lost what it used to be
But you'll always find me in your memories

We used to be what you see when you think of love and everything in-
between
We used to talk saying "Nah, nah, nah. You hang up," 'til one of us f
alls asleep
We gave what we had

```
It's not that it's bad
Just lost what it used to be
But you'll always find me in your memories
```

```
It's not that it's bad
Just lost what it used to be
But you'll always find me in your memories
```
