Valley

Enemy don't stay close to me
You're always in my mind
I'll deny it
Personify it
'Til I bleed you dry

I suck the life right out of me
I'll suck the life right out of you
I'm driving this car half asleep
Riding in the passenger seat

Enemy don't stay close to me
You're always in my mind
I'll deny it
Personify it
'Til I bleed you dry

I suck the life right out of me
I'll suck the life right out of you
I'm driving this car half asleep
Riding in the passenger seat

Riding in the passenger seat
Riding in the passenger seat
Riding in the passenger seat
Riding in the passenger seat

Oh baby please don't change a single thing (least not for me now)
Oh baby please don't change a single thing (least not for me now)
Oh baby please don't change a single thing (least not for me now)
Oh baby please don't change

Enemy don't stay close to me
You're always in my mind
I'll deny it
Personify it
'Til I bleed you dry

I suck the life right out of me
I'll suck the life right out of you
I'm driving this car half asleep
Riding in the passenger seat

Enemy stay close to me
You're always on my mind
