

Natural

Valley

You don't have to talk, I hear your thoughts, don't have to say nothin'
Had a broken heart until you healed it
Even when it's tough, you're still enough, I wouldn't change nothin'
People search their whole life just to feel this

'Cause they can play games till they're giving it up
And take what they take but it's never enough
We're on the same page, this city is superficial

But baby, we're natural
Without even thinking
And living without ya
Would only be breathing
Yeah, baby, we're natural
Like psilocybin, we're vibin', not even tryin'
You know
Like country in Nashville
Oh baby, we're natural

You don't have to go, just stay in bed
And rest your head on me
We can lay forever in this moment, yeah

'Cause we could play games, but we're better than that
And take from each other 'stead of givin' it back
We're on the same wave, this city is superficial, yeah

But baby, we're natural
Without even thinking
And living without ya
Would only be breathing
Yeah baby, we're natural
Like psilocybin, we're vibin', not even tryin'
You know
Like country in Nashville
Oh baby, we're natural

Like psilocybin, we're vibin', not even tryin'
You know
Like country in Nashville
Oh baby, we're natural

Baby, you just gotta think it
When you look at me, I see, yeah

'Cause baby, we're natural
Without even thinking
And living without ya
Would only be breathing
Yeah baby, we're natural
Like psilocybin, we're vibin', not even tryin'
You know
Like country in Nashville
Oh baby, we're natural
