

When You Know Someone

Valley

One, two, one, two, three, four

When you know someone
Think you know someone
So well
And when they break your heart
It's never equal parts
Oh well

Jump ship right there in mid-ocean
Another sinking hand means
One less that I'm holding
Your secret life cut me open
Too proud to say so
I'm not what you want
When you know someone
You really know someone
Someone like me

Thought I knew you well
Had you to myself
Myself

So sick of trying too little than trying too hard
Expecting me to find you when you left me in the dark
From strangers to friends to strangers again
I knew from the start this is how it would end

Jump ship right there in mid-ocean
Another sinking hand means
One less that I'm holding
Your secret life cut me open
Too proud to say so
I'm not what you want
When you know someone
You really know someone
When you know someone
You really know someone

Someone like me
Someone like me
Someone like me

When you know someone
Toothpaste
Mistakes
Headphones
Your basement
When you know someone
Car keys
Girlfriends
Passwords
Your last words
When you know someone
Brookfield
T-shirts
Three words

I love you
