

Nothing More Than Human

Vallis Alps

Watch all of my pride on the fault line wash away
Nothing more than human illusions were my mistake
I'm counting every wave
And the promises I break
I don't know ya
I don't know ya
They're pulling me away
Cuz I had something to say
But the undertow pulls me back

Aah, aah, aah
I'm running from a life
That kept me in the dark
Aah, aah, aah
Cuz I was under water
Inches from the shore
Aah, aah, aah
And when I turn the page, and
Remember why we stayed, it's
Hard to see we're in the deep
Running from the fever of believing
Oh

Caught up in the lies, neon lights, on the interstate
Separate, divide I'm alive when I'm not awake
I'm underneath the waves
Of the feeling I've been chasing
Hallelujah
Hallelujah
But something in me changed
And I knew I'd never
Let it go

Aah, aah, aah
I'm running from a life
That kept me in the dark
Aah, aah, aah
Cuz I was under water
Inches from the shore
Aah, aah, aah
And when I turn the page, and
Remember why we stayed, it's
Hard to see we're in the deep
Running from the fever of believing
Oh

If you find me unsure, I
I will never be more
If you let me go slow, I
I will never let go

If you find me unsure
I will never be more
And if you're right
I'll leave without a fight
