

Set It Off, Set It Right

Vallis Alps

Should I do a high version just to see what it sounds like? (Sure)

Bending all my habits
When I cared about my status
Let it go

No such thing as magic
I'm an artist with my tactics
You should know

Middle meanings, it's a lot to get out
Getting even
Getting caught on the ground

I could walk away, creased and folded
I could take another seat and hold my own

I wasn't
Gonna run away
But I was there today
Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it off
Set it right

This doesn't
Have to end this way
But I was there today
Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it right

Shaking out the fabric
I made up what was lacking
On my own

Messin' with the magic
You were moving, I was static
You should know

I was so solo, and I got hollow
How did it feel for you to say
So clearly

You could walk away, creased and folded
You could take another seat and
Hold your own

I wasn't
Gonna run away
But I was there today
Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it right

This doesn't
Have to end this way
But I was there today
Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it off
Set it right

Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it right

Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it right

Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it right

Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it right

I wasn't
Gonna run away
But I was there today

Set it off
Set it off
Set it off
Set it right
Set it off
Set it off
Set it off
Set it right

This doesn't
Have to end this way
But I was there today
