

## So Settled

Vallis Alps

What did you say?  
All my fight is running out  
I've gotta go now  
What did you know?  
All the reasons I would turn back  
I'd never show  
Then you found out  
Oh light, light, light was on the water  
I was only watching til' the tide gave way  
Could you grow, grow, grow a little faster  
I could only tell you what it's gonna take

And time  
You are a little bit slow  
And time  
You all lost control  
And we are always walking to the end

What did you say?  
While hoping for the best  
I'd never let go  
Well did you know?  
I was turning myself backwards again  
But your heart felt so settled too  
You know I'm running straight for you  
Ooh, on the water  
I'll light up with the fire  
I'll let go

And time  
You are a little bit slow  
And time  
You all lost control  
And we are always walking to the end
