

Start Again

Vallis Alps

I could re-arrange
Or I could shy away
From all these guessing games
That I play

Staring into space
But I'm clouded by the haze
Surrounded as I'm find my way back to you

Are you giving up the feeling?
Are you scared of what you found?
Why you living in a fever?
Oh it only holds you down
Now I'm giving up the feeling
Oh I made it back
Oh I made it back, back, back

Find your feet
Oh let me in
Your minds awake
Don't hesitate
To start again
Oh find your feet
And let it begin
Cause the more you chase
The less you wait
To start again

I found better days
But if it's temporary
I won't be ashamed
It's a phase

Electric to be brave
Cause' I found an escape
Oh I washed it all away
Way to soon

Are you giving up the feeling?
Are you scared of what you found?
Why you living in a fever?
Oh it only holds you down
Now I'm pushing back the ceiling
Oh I made it back
Oh I made it back, back, back

Find your feet
Oh let me in
Your minds awake
Don't hesitate
To start again
Oh find your feet
And let it begin
Cause the more you chase
The less you wait
To start again
