

Turn It Around

Vallis Alps

Ooh
Ooh
Ooh
Ooh

What?
Did the lie call you out?
Am I ready for a fight?
Am I ready for a fight?

So meet me when the light falls down, I've had it
Pulling us apart, it's automatic
I got nothing left in my heart
I'm breaking down, down, down

The pressure, it's methods, I'm running on red
Just get it together, it's all in my head
A moment, a minute to let it go
Let it go

So see me when the night calls out
I got my heart in other places now and always
Sorry but enough is
Ooh, it's enough

I tried
But I heard that I was letting you down
Just wait for me, I'll turn it around
I heard that I was letting you down
Just wait for me, I'll turn it around

The pressure, it's methods, I know it's not breaking
The heartache, the old weight, I know what it's taking
The pressure, it's methods, I know it's not breaking us

So meet me when the light falls down I've had it
Nothing in my heart is automatic
Lemme take it back to the start
I'm breaking down, down, down

Ooh
Ooh
Ooh
Ooh

I tried
But I heard that I was letting you down
Just wait for me, I'll turn it around
I heard that I was letting you down
Just wait for me, I'll turn it around
