

# No Matter What

Valora

If I tell you I am still so high to  
try your hand, I will find you  
have not letton go of mine

Spinning over me, your affection  
you'rein for the lesson  
you have failed to recieve

God knows you don't have to stick around  
God knows you don't have to stick around

You take it on  
You are my love no matter what  
You're made of bone  
You pick me up no matter what I do

You'll lose yourself  
I'll give you the words to breathe  
my pain, in hell  
you are the one for me

Your coming eyes repair all the damage  
restored from my old habits  
don't talk in your sky

You're God like  
I don't want to feel better  
I've been this way forever  
Don't give up on me now

You take it on  
You are my love no matter what  
You're made of bone  
You pick me up no matter what I do

You'll lose yourself  
I'll give you the words to breathe  
my pain, in hell  
you are the one for me

I'm living on and on  
and so you give into me  
I want to crawl  
I'll stay away so I can be  
I'm so corrupt  
take me, take me home  
I'm living on and on  
and so you give into me  
I want to crawl  
I'll stay away so I can be  
I'm so corrupt  
take me, take me home

You take it on  
You are my love no matter what  
You're made of bone  
You pick me up no matter what I do

You'll lose yourself  
I'll give you the words to breathe  
my pain, in hell  
you are the one for me
