

# Finger Back

Vampire Weekend

Middle finger back, snap  
Bring it here baby don't  
Break it to your left set straight  
Hit me with a wood bat  
Hit me with the canisters  
Found my soul just drive away

Middle finger back, snap  
For days  
Hit me with a wood bat  
Hit me like a yankee  
Like the south never had a slave

They say kid willy is the dumby on the line  
Sympathy and the sun will never shine  
Everybody wants you but baby you are mine  
Baby you're not anybody's fool

Listen to the harder  
Talk to her please call her  
Show you what fine is now  
Visit every now  
How did it to the punishment  
The punishment I needed on my life  
Middle finger back snap  
Listen to the board up  
Listen to the evidence  
It's harder having me from being wild

They say kid willy is the dumby on the line  
Sympathy and the sun will never shine  
Everybody wants you but baby you are mine  
Baby you're not anybody's fool

You know that I awakened and the road is wide  
Sympathy and curiosity made it from the shine  
Anyone we shot we took them for a ride  
Baby you're not anybody's fool

Middle finger back, snap  
Bring it here baby don't  
Break it to your left set straight  
Hit me with a wood bat  
Hit me with the canisters  
Found my soul just drive away

Middle finger back, snap  
For days  
Hit me with a wood bat  
Hit me like a yankee  
Like the south never had a slave

They say kid willy is the dumby on the line  
Sympathy and the sun will never shine  
Everybody wants you but baby you are mine  
Baby you're not anybody's fool

The artic is broken and the devil is fine  
City getting out like a country in decline  
Every once and now I've been looking from the eyes  
But baby you're not anybody's fool

And remembrances of holy days in Tari tarira  
Who couldn't bear to try  
I don't wanna live like this  
But I don't wanna die
