Chestnut park on a Saturday night

```
Mystical boys feelin alright
Raggedy wisdom falls from my hand
As the ladies of Cambridge know who I am
I've had dreams of Boston all of my life
Chinatown between the sound of the night
But if you leave I just don't think I could take it
Take it
Take it
Take it
Graveyard freaks we're fallin' in style
Lady's the pharaoh, Charles is the Nile
That's a museum, that's a cool place
Stones of your fathers standin' today
I've had dreams of Boston all of my life
Chinatown between the sound of the night
But if you leave I just don't think I could take it
Take it
Take it
Take it
I've had dreams of Boston all of my life
Chinatown between the sound of the night
Cos when you left my room
To go to the kitchen
I imagined that you were dead
A morbid steak runs through
The whole of my family
But for you I could put it to rest
But if you leave I just don't think I could take it
Take it.
Take it
Take it
