

# Ghost

## Vampires Everywhere!

I can't breathe until you let me  
I took a bullet to my chest and I  
Buried all the empty  
Pieces that I left behind  
There's a voice inside my head  
I'm getting lost inside my faith  
If the world wants us dead  
I'd rather die in your embrace

I can't believe in a ghost  
Buried deep below  
I can't believe in something  
That remains under the ground  
I can't believe in a ghost

I can't believe in a ghost

The planet destruction  
Tear me apart, rebuild my house  
My heart can't function (it can't function)  
There's no walls, no place to hide

I can't believe in a ghost  
Buried deep below  
I can't believe in something  
That remains under the ground  
I can't believe in a ghost  
Buried deep below  
I lost myself inside the silence  
And I guess if you climb out  
I'd give you my heart

Can you feel it fading?  
I used to believe in something  
But this feeling is slowly leaving

I called your phone  
I didn't want to be alone  
I swear this time the poison  
I swear this time the poison  
Stings

Another day been inside my closet  
Buried in a silver locket  
Another day been inside my own head  
I suffer 'cause I couldn't face it

I can't believe in a ghost  
I can't believe in a ghost

I can't believe in a ghost  
That would only let me drown  
I can't believe in something  
That remains under the ground  
I can't believe in a ghost  
Buried deep below  
I lost myself inside the silence

And I guess if you climb out  
I can't believe in a ghost

I can't believe in a ghost  
I can't believe in a ghost
