

Sudden Death

Vampires Everywhere!

You cut a hole in my heart
As deep as a grave
I'm falling apart
I need a remedy

There's nothing to lose
If there's nothing to save
I sold my soul to my enemies!
To my enemies!

You think vengeful god
Will cheat the game
Ignite the fire
Burn it all in flames

You hide the hate
Divert the shame
But in the end
You're the one to blame!
You're the one to blame!
Hear me now!

I see the devil in your eyes
I hear your voice calling back to me
I hear the stutter in your lies
The sudden death of your heartbeat

I won't let you out
You won't survive and turn it all around
The witches hex the serpents tongue
You can't survive the pendulum

The demons blessed the earth
The footsteps burned and atrophied
My stomach aches the urge
To fight the ghosts inside of me

Now we lie you down
The devil's earth is surrounding me
My heart beats like a drum
Buried deep inside catastrophe

I see the devil in your eyes
I hear your voice calling back to me
I hear the stutter in your lies
The sudden death of your heartbeat

I see the devil in your eyes
I feel your skin crawling haunting me
I hear your suffocating cries
The sudden death of your heartbeat

I won't let you out
You won't survive and turn it all around
The witches hex the serpents tongue
You can't survive the pendulum

Feel the blood in the back of your throat
It's the end, no remedy
You can't decide to sink or float
It's the end, no enemies!
Feel the blood in the back of your throat
It's the end, no remedy
You can't decide to sink or float
It's the end, hear me now!

I see the devil in your eyes
I hear your voice calling back to me
I hear the stutter in your lies
The sudden death of your heartbeat

I see the devil in your eyes
I feel your skin crawling haunting me
I hear your suffocating cries
The sudden death of your heartbeat

I won't let you out
You won't survive and turn it all around
The witches hex the serpents tongue
You can't survive the pendulum
I won't let you out
You won't survive and turn it all around
The witches hex the serpents tongue
You can't survive the pendulum
I see the devil in your eyes...
