

Tear Me Down

Vampires Everywhere!

I can't bleed out now I'm suffocating
A curse a masochistic sort of feeling
I feel the silver piercing through my chest
You believe in myths then I can't die yet

All this servitude I did my time
I played with ya'll but you left me behind
I felt the pain a little glory I never fit in
I'll never say I'm sorry

And when you turn off the lights
Can you hear me calling
In the dead of the night
When you're finally broken
It's ok cause you're still not feeling a thing
It's ok cause the worst is over
It's ok cause you're still not feeling a thing
Tear me down...

It's a part of me, it's my story
You buried me once but you can't ignore me
In the cemetery I sold my soul, I gave up friends
For rock n roll

The smell of blood the years of love
Just a catalyst to what I've become
I can't describe all the demons I've met
You believe in myths then I can't die yet

And when you turn off the lights
Can you hear me calling
In the dead of the night
When you're finally broken
It's ok cause you're still not feeling a thing
It's ok cause the worst is over
It's ok cause you're still not feeling a thing
Tear me down...

I hear the wolves at the gate
You can't run just to wilt and decay
All the voices running through my head
But you can't hear god if you're already dead!...

And when you turn off the lights
Can you hear me calling
In the dead of the night
When you're finally broken
It's ok cause you're still not feeling a thing
It's ok cause the worst is over
It's ok cause you're still not feeling a thing
Tear me down...
