

Never

Vampires on Tomato Juice

never -- never never never
i don't wanna live forever -- ever ever ever

we're just stuck in space
mirrors strain the face
blood now tastes like oil
love starts to recoil

how do you feel when it's all coming down
how do you feel when the flame is all around

is it a threat? -- do you regret?
we're stuck in unholy flesh
vegetating in our stash

how do you feel when death sends a kiss
how do you feel when there's no one left to miss
forgotten sons -- we are the ones

how do you feel when it's all coming down
how do you feel when the flame is all around
how do you feel when death sends a kiss
how do you feel when there's no one left to miss
is it a threat? -- do you regret?

how do you feel when it's all coming down
how do you feel when the flame is all around
how do you feel when you're banned from the sun
how do you feel in this lonely life forgone
is it a threat? -- do you regret?

regret!

... blood now tastes like:

grandma's armpit
feces of a dinosaur
sperm of a starfish
ehc cucumbers
foot fungus juice
rancid pussypuss

dude, this fuckin' whore -- you see that shit is running down her leg
?

how do you feel when it's running down?
how do you feel when it's all around?
do you regret the loneliness?
do you regret there's no one left to miss?
do you regret?
