

hello mr. fox my friend
nice to meet you once again
you submitted in the end
lost your wife and all your friends

goodbye mr. sparefox
time for revolution
goodbye mr. spaxefox
thanx for your conclusion
you're to blame and banned forever

goodbye mr. sparefox
you will die alone now
goodbye mr. sparefox
grab your cash and go now
you're to blame and banned forever

you fed em all with lies
you took away their lives
you fed em all with lies
they wanna see you die

they gonna hunt you down
no matter where you run
they gonna hunt you down
no matter where you run

and when the leader falls we break the walls
freedom calls
we raise the jars up high

hello mr. fox my friend
nice to meet you once again
you submitted in the end
lost your wife and all your friends
there's new fur parading 'round

riots in the woods of eden - the foxes hail
the foxes dance - the foxes turn up the tail

now that you're gone
they think they are one
the wrong conclusion
it's an illusion

now that you're gone
freedom will come
it's an illusion
the wrong conclusion

are you alright?
