

Infinity

Van Canto

This is infinity, the morning glow arising
Endlessly, we're taking no denial
Blindfolded we see, a universe resizing
This is our infinity

Yes! We are alive
Willing to take a deeper dive
Into the void
To lands unknown
Entering the danger zone
We are ready to outlast
Centuries till eras passed
Defining our own golden age
From doubts we disengage

The world keeps turning
All alone we stand
Our wish will be our command

This is infinity, the morning glow arising
Endlessly, we're taking no denial
Blindfolded we see, a universe resizing
This is our infinity

We are walking in your sleep
Falling high and rising deep
Kingdoms failing, it's our throne
Those who wait are not alone
To see you have to close your eyes
Bluff the masters of disguise
Anchoring new attitude
Relocate your point of view

The world keeps turning
All alone we stand
Our wish will be our command

This is infinity, the morning glow arising
Endlessly, we're taking no denial
Blindfolded we see, a universe resizing
This is our infinity

Endlessly, the world is turning and indeed
Relentlessly, the end crawls near
Mindlessly, we navigate the restless seas
Of constant infinity

Infinity, everlastingness
Infinity, everlastingness
Infinity, everlastingness
Never ending infinity

This is infinity, the morning glow arising
Endlessly, we're taking no denial
Blindfolded we see, a universe resizing
This is our infinity
