

At The End Of A Slow Dance

Van Hunt

Never let yourself be seen
By everyone we know
I'll comfort you before I leave
But baby I don't want to go

Never thought you would hurt me
Leave me down so low
Here comes the grand finale
But baby don't you wanna go

Back to the sound of the music
Back to the moment I ask your hand?
Before we let each other go
At the start of the romance
Back to sound of the music
Back to the moment I ask your hand?
Where do the lovers go
At the end of a slow dance

Tell me how it made you feel
To give my love away
To give him what he had to steal
All on the other day?
It meant nothing so you say
And you've got nothing to show
But offer me a big cliché
That/It only makes it worse

Back to the sound of the music
Back to the moment I ask your hand?
Before we let each other go
At the start of the romance
Back to sound of the music
Back to the moment I ask your hand?
Where do the lovers go
At the end of a slow dance

[Interlude]
Can we fall in love again
Once we fall down
Can we find the innocence
Once we fall down
Can we fall in love again
Can we find the beginning

Back to the sound of the music
Back to the moment I ask your hand?
Before we let each other go
At the start of the romance
Back to sound of the music
Back to the moment I ask your hand?
Where do the lovers go
At the end of a slow dance
