

If I Wanna Dance With You

Van Hunt

The English air is a face eraser
And it wears away what matters as our matter fades
I want to leave with you forever
I wonder if I can in these dark cages

If I wanna dance with you
If I wanna dance with you, I have to use my remote control
If I wanna dance, wanna dance, wanna dance with you, oh
If I wanna dance with you I have to use my remote control

Fighting over words, bad for your bones
Like two lovebirds killing each other over one stone
But don't worry, love will return
With more love that will be gone

If I wanna dance with you
If I wanna dance with you, I have to use my remote control

If I wanna dance, wanna dance, wanna dance with you, oh
If I wanna dance with you I have to use my remote control

If I wanna dance with you
If I wanna dance with you
If I wanna dance, wanna dance, wanna dance with you, oh
If I wanna dance with you, I have to use my remote control

Make a believer out of you for me
Bring some relief far from the misery
And we will sneak out with a victory

And I'll dance with you
When I wanna dance with you
If I wanna dance, wanna dance, wanna dance with you
If I wanna dance with you, I have to use my remote control
