

# A Shot Of Rhythm And Blues

## Van Morrison

Well, your hands start to clapping  
Fingers start to popping  
Feet wanna move around  
Start to swing and sway  
And a band starts a-play  
Real cool 'n way out sound  
Get the can't help  
And you can't sit down  
Feel like you gotta move around and around

Need a shot of rhythm and blues  
Just a little rock an roll on the side  
Just for good measure  
You need a pair of dancing shoes  
With your baby by your side  
Don't you know you're gonna have a lot of pleasure

Don't you worry 'bout a thing  
Start to dance and sing  
Chill bumps come up on you  
Feeling finally gets you  
When the beat gets you through  
Now, here's the thing for you to do

Don't you worry 'bout a thing  
Start to dance and sing  
Chill bumps come up on you  
Feeling finally gets you  
When the beat gets you through  
Now, here's the thing for you to do

Need a shot of rhythm and blues  
Just a little rock an roll on the side  
Just for good measure  
You need a pair of dancing shoes  
With your lover by your side  
Don't you know you're gonna have a lot of pleasure

Don't you worry 'bout a thing  
Start to dance and sing  
Chill bumps come up on you  
Feeling finally gets you  
When the beat gets you through  
Now, here's the thing for you to do

Shot of rhythm and blues
