Van Morrison

Saw you ridin' 'round  
Baby, in your brand new automobile  
Saw you ridin' 'round town  
In your brand new automobile  
Look so pretty with your  
Handsome driver at the wheel  
In your brand new automobile

Car's so pretty, baby  
Please let me ride some time  
Car's so pretty, baby  
Please let me ride some time

Got a get your friend  
But you know he ain't like mine  
In your brand new automobile

I want you to get me baby  
Let's go out and have some fun  
Come and get me baby  
Why don't we go out and have some fun

Everything's gonna be shaking  
Just about the break of dawn  
In your brand new automobile

I want you to come and get me baby  
Let's have some fun  
Come and get me baby  
Come on, let's have some fun

Everything's gonna be alright  
Just about the break of dawn  
In your brand new automobile
