

Dangerous

Van Morrison

Somebody said I was dangerous
I said something bad, it had to be good
Well I must be somebody looking, seeing I'm close to it
Maybe I'm getting close to the truth

Somebody said I was dangerous
I said something bad, it must've been good
Somebody said I was dangerous
I must be getting close to the truth
I'm not talking about wishful thinking
I'm talking 'bout calling 'em out, all their lies, lies
I'm not talking about wishful thinking
Why don't I make somebody cry?

Somebody said I was dangerous
I said something bad, but it must've been good
Somebody said I was dangerous
I must be getting close to the truth, alright, alright

Really, I was just looking for the evidence
I've been asking for it for over a year
I was just asking 'em for the evidence
I've been asking 'em now for over a year

Somebody said, well, I'm dangerous
Well, I must be getting, getting close to the truth, alright, hey

Somebody said it was about the data
Somebody else said it was about the dates
Somebody said does it really matter? I said yes
I said I want ya to show me, show me the proof

I've been asking for it, for the evidence
For now baby, we'll over a year
I've been asking for, innocent evidence
I've been asking it for now well over a year

Somebody said, give me the data
Somebody said it must've been about dates
Somebody said look it up on a computer
But I said man, it's a bit too late

Somebody said I was dangerous
Somebody said I was dangerous
I said something bad, I was dangerous
It was something so bad, it must've been good

Somebody said I was dangerous
I must be getting closer to the truth
I said where is the evidence?
I just wanna see the proof

I said gimme gimme gimme gimme gimme
Gimme some evidence
I wanna see, I wanna see some proof
Because

Somebody said I was dangerous
I said something bad, man that must've been good
Well, somebody said I was dangerous
Oh well, man
That means I'm getting close to the truth
Close to the truth
