

# Down To Joy

Van Morrison

Went to sleep last night  
I had a kind of dream for sure  
When I woke up in the morning  
Felt like I was coming down to joy

What did I see, what did I hear  
When I was coming down?  
Had a brand-new story  
When I was coming down to joy

Felt so good, gratitude  
When I was coming down  
Something quite, quite profound  
That I cried out loud

I had a brand-new story (Brand-new story)  
I was coming down to joy  
She was standing there before me (There before me)  
When I was coming down, down, down, down

Felt so good, gratitude  
When I was coming down  
It was something quite profound  
That I cried out loud

I had a brand-new story (Brand-new story)  
When I was coming down to joy  
Man, I felt the glory (Felt the glory)  
When I was coming down to joy

She was standing there before me (There before me)  
When I was coming down  
I said I do adore thee (I adore thee)  
When I was coming down to joy, oh

What vision was before me (Was before me)  
When I was coming down?  
It was just around the corner ('Round the corner)  
When I was coming down to joy

Coming down (Coming down)  
Coming down to joy  
Coming down to joy  
Coming down (Coming down)  
Coming down (Down to joy), coming down  
Coming down to joy
