

# Love Should Come With A Warning

Van Morrison

She told me she loved me  
'Bout ten times a day  
She said that she would die  
If I ever went away  
Then I got this letter  
Cut just like a knife  
Said, "I met somebody else  
Why don't you have a nice life"

Love should come with a warning  
(Love should come with a warning)  
'Cause it can break your heart  
One minute that you're falling  
Next minute you're falling apart  
Love should come with a warning  
(Love should come with a warning)  
And a danger sign  
Won't somebody help me  
Mend this heart of mine

She was smoking and drinking  
And I just can't get to sleep  
Man, she's a better actress  
Than Meryl Streep  
I should see her right up there  
On the silver screen  
I'm telling you now  
She'd steal every scene

Love should come with a warning  
(Love should come with a warning)  
It can break your heart  
One minute, one minute you're falling  
And your next you're falling apart  
Love should come with a warning  
(Love should come with a warning)  
And a danger sign  
Won't somebody help me, help me  
Mend this heart of mine  
Love should come with a warning  
(Love should come with a warning)  
And a danger sign  
Won't somebody help me  
Mend this heart of mine
