

# Tell Me

Van Morrison

Tell me, tell me, tell me, tell me  
All about your love, all about your love

Every little bit  
Every little bit of my heart sings  
Every little song  
Every little song that your love brings  
And every day, in every little way  
Your love shows  
And every day, in every way  
Our love grows

You've gotta tell me  
Tell me, tell me, tell me  
All about your love, all about your love

Lovin' only you, lovin' that is true  
Is my prime delight  
Lovin only you, lovin' that is true  
In the morning light  
Couldn't be another one, uh, no couldn't be another one  
Set my soul on fire  
Never be another one, never, never be another one  
You're my heart's desire

Come on and tell me  
Tell me, tell me, tell me  
All about your love, all about your love

Ain't it real, ain't it true  
Can you feel it  
Feel it

Ain't it real, me and you  
Can you feel it  
Feel it

Darlin', darlin' darlin', darlin'

Come into my arms  
Cuddle up, take your time, girl  
Show me all your many charms  
Let me know that you're mine, girl  
Tell me that your the sweetest wine  
Like the river let them flow  
This is so complete a time  
You gotta let me know  
Let me know, let me know

You gotta tell me  
Tell me, tell me, tell me  
All about your love, all about your love  
All about your love, all about your love

Come on and tell me  
Tell me, tell me, tell me, tell me  
Tell me tell me baby

All about your love, all about your love  
Tell me all about your, all about, all about all about your love  
Tella me, tella me, tella me, tella me
