

When The Rains Came

Van Morrison

When the rains came, didn't bother me much this time
When the rains came, seemed to give me peace of mind
I saw you standing, and I was coming down the lane
When the rains came, I walked you back home again
When the rains came (When the rains came)
When the rains came (When the rains came)

And these moments kept comforting me
In these trying times to come
And then the sun came out, shone so bright
Everything was right in the world, in the world

When the rains came, didn't bother me much this time
When the rains came, seemed to bring me peace of mind
When the rains came (When the rains came)
When the rains came (When the rains came)

And these moments kept comforting me
In these trying times to come
And the sun came out, it shined so bright
Made everything right again in the world, in the world, in the world

Saw you standing, standing in the rain
And I walked you, walked you back home again
When the rains came (When the rains came)
When the rains came (When the rains came)

And these moments kept comforting me
In these trying times to come
And the sun came out, shone so bright
Everything felt right again in the world, in the world

When the rains came, didn't bother me much this time
When the rains came, seemed to bring me peace of mind
When the rains came (When the rains came)
When the rains came (When the rains came)

Take my hand, take my hand (When the rains came)
Take my hand, walk with me across this land (When the rains came)
Walk with me across this land (When the rains came)
Across this land, take my hand (When the rains came)
Take my hand, walk with me, walk in this land (When the rains came)
Won't you walk with me across this land? (When the rains came)
(When the rains came)
(When the rains came)
Walk with me, child, across this land (When the rains came)
Help me understand
Walk with me across this land, help me understand (When the rains came)
(When the rains came)
(When the rains came)
(When the rains came)
